

The Next Generation in Floor Care Products

# Floor Plus™

## BIOENZYMATIC CLEANER

*Designed for Institutional and Commercial Kitchens and Bathrooms*

### FEATURES

- Cleans floors and grout
- Removes grease
- Degrades organics that cause odors; i.e. urine
- Contains microbes that produce enzymes specific for the breakdown of the harder to degrade fatty acid components of grease.
- Environmentally friendly
- Made in the USA

### BENEFITS

- Provides long-term, deep cleaning by removing and eliminating imbedded residual organics left in pores, grout, cracks, corners and crevices
- No rinsing required
- Reduces labor costs
- Reduces slippage, increases safety for employees
- Helps reduce the chance of a Workman's Compensation case due to a slip and fall
- Helps to control odors
- Enhances customer perception
- Reduces conditions that invite and harbor pests
- Significantly better product performance as a result of a patent pending microbial strain that degrades fatty acids
- Safe to use
- Creates jobs
